LTL MANDARIN SCHOOL
— LIVE THE LANGUAGE —

Have you ever come across a language with thousands of measure words? If you thought that English's limited use of measure words like "piece" or "cup" was interesting, then prepare to be blown away by Chinese measure words! These unique linguistic tools are an essential part of mastering the Chinese language

and provide a fascinating insight into Chinese culture and the way objects are classified.

1. Why Do Chinese Measure Words Matter?

Chinese measure words are indispensable for conveying exact quantities in everyday conversations. They are placed between numbers and nouns to specify the unit of measurement. However, what makes Chinese measure words truly captivating is their incredible variety and sheer number. Unlike English, which has a few simple measure words, Chinese offers a rich and intricate system of measure words that cater to different shapes, objects, and features.

Must-Know Chinese Measure Words: A Beginner's Guide to Learn Mandarin Chinese Quantifiers, Including Simplified Characters, Pinyin and Popular Phrases (Learn Chinese Characters Fast Book 10) by Jia Ming Wang (Kindle Edition)

2. A Journey into the World of Measure Words

Get ready to embark on a journey into the wondrous realm of Chinese measure words! From animals to vehicles, people to buildings, Chinese measure words have a specialized measure word for it all. Each measure word not only aids in

quantifying the associated noun but also reflects the quintessential Chinese way of observing the interconnectedness of the world. The context and subtlety behind these measure words are what make them so mesmerizing.

3. Unveiling the Mysteries – 10 Must-Know Chinese Measure Words

1. Càng (越): This fascinating measure word is used to express "the more...the more..." and highlights the correlation or dependence between two things.
2. Gè (个): As one of the most commonly used measure words in Chinese, gè is equivalent to the English word "one." However, its versatility exceeds that of its English counterpart. Gè can be used for people, objects, or abstract nouns.
3. Zhī (只): Primarily used for small and medium-sized animals, zhī is the go-to measure word for creatures like cats, dogs, birds, and insects.
4. Tou (头): This measure word is exclusively reserved for the animal kingdom, more specifically for livestock and large animals like cattle, horses, and elephants.
5. Piàn (片): Typically employed to measure thin, flat objects, piàn is commonly used for various things such as sheets of paper, leaves, screens, and even movies and songs.
6. Líng (领): As a measure word for clothing, líng is particularly interesting. It reflects the importance of clothing in Chinese culture and emphasizes the relationship between clothes and the person wearing them.
