The kingdom of Albion was thrown into complete chaos after the death of King Nadir. All kinds of evil are practiced indiscriminately on the streets of the capital. Naron, the usurper king and murderer of the former king, his brother, now transforms the lands of Albion into an extension of the underworld. Without the beings of the deep, Naron would never have been able to defeat King Nadir, the chosen by the God Fazuzza and the most powerful elemental in the realm.

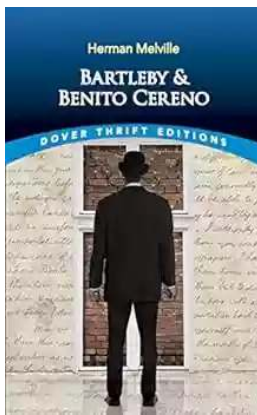

All seems lost, and the reign of darkness seems to last for eternity. The only hope for better days for the kingdom is the weak and immature prince Mycenae, who will one day assume the throne and reign over the lands of Albion. Or if the missing princess, daughter of Nadir, returns to claim the throne, if she is still alive, and that is very unlikely.

Perhaps the almighty Fazuzza, founder of the kingdom of Albion, will come down to earth to sort out the mess made by Naron and the beings of the underworld.

But it seems that even the mighty God forgot about Albion and left the realm forsaken to be swallowed up by darkness.

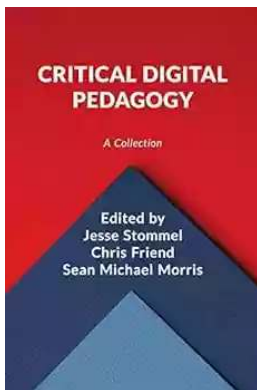

Mycenae is too weak to stand up to his evil father, and if he chose to do so he would be turned to dust by the king's mighty magic. Luckily, the king is not immortal, and one day Mycenae will inherit the throne, if he survives until that moment. But even after inheriting the throne, he will have to face the underworld in order to change anything in the kingdom, and they are too powerful to be defeated.

There is no hope for the kingdom of Albion unless a miracle happens... or unless the prophecy is true.
