- **Hola** - Hello
- **¿Cómo está?** - How are you?
- **Soy el médico/enfermero/doctor** - I am the doctor/nurse/physician
- **¿En qué puedo ayudarle?** - How can I help you?

## 2. Medical History

When gathering medical history information, it is crucial to ask the right questions. Here are some key phrases that will help you obtain essential medical information:

- **¿Cuál es su fecha de nacimiento?** - What is your date of birth?
- **¿Tiene alguna alergia?** - Do you have any allergies?
- **¿Ha tenido alguna cirugía?** - Have you had any surgeries?
- **¿Está tomando algún medicamento?** - Are you taking any medication?

### 3. Symptoms and Pain Assessment

Understanding and accurately assessing your patients' symptoms is vital for making an accurate diagnosis. Here are some phrases related to symptoms and pain assessment:

- **¿Qué síntomas tiene?** - What symptoms do you have?
- **¿Dónde siente dolor?** - Where do you feel pain?
- **¿En una escala del 1 al 10, cuánto dolor siente?** - On a scale of 1 to 10, how much pain do you feel?
- **¿Tiene fiebre?** - Do you have a fever?

### 4. Diagnosis and Treatment

Explaining a diagnosis and discussing treatment options require clear communication. Here are some essential phrases for diagnosis and treatment discussions:

- **Según los síntomas, parece que tiene** - Based on the symptoms, it seems that you have
- **Voy a solicitar/practicar una prueba médica** - I am going to request/conduct a medical test

- **Recomiendo que siga este tratamiento** - I recommend you follow this treatment
- **Si los síntomas empeoran, llame a este número** - If the symptoms worsen, call this number

## 5. Instructions and Advice

Providing clear instructions and offering advice is crucial in ensuring patients understand and follow through with their treatment plans. Here are some useful phrases for giving instructions and advice:

- **Tome este medicamento** - Take this medication
- **Descanse y tome muchos líquidos** - Rest and drink plenty of fluids
- **Evite alimentos grasos** - Avoid fatty foods
- **Siga las instrucciones** - Follow the instructions

## 6. Common Medical Terminology

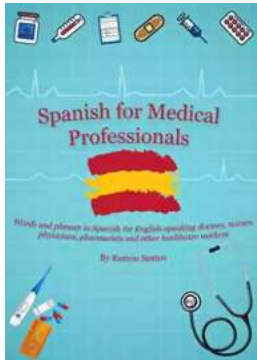

Expanding your medical terminology vocabulary is essential for effective communication in a clinical setting. Here are some common medical terms in Spanish:

- **La presión arterial** - Blood pressure
- **La temperatura** - Temperature
- **La radiografía** - X-ray
- **La cirugía** - Surgery

In a multicultural society, healthcare professionals with the ability to communicate with patients who speak different languages can significantly improve overall

patient experience and medical outcomes. By familiarizing yourself with these Spanish words and phrases specifically tailored for doctors, nurses, and physicians, you will be better equipped to connect with your Spanish-speaking patients and provide them with the highest quality care.

Remember, effective communication is at the heart of excellent healthcare!
