Best known for founding international haulier, Trans UK, Bob Carter was involved in the ground-breaking changes occurring in British transport of the 60s and 70s. Beginning in the army, where he witnessed nuclear testing on Christmas Island in the 1950s, Carter went on to be a driver, office worker, and, finally, company owner. Never afraid to get his hands dirty, Bob was able to turn his hand to any aspect of his business operation, from repairing mechanical defects to operating forklifts, and driving his own trucks. In 1975, he set out on Trans UK's maiden run to Iran in his Humber Sceptre with four of his trucks in convoy-the first trip of many for the company. The denationalization of BRS and the implementation of the 'O' licence, the rapid growth of privately owned haulage companies, combined with the Middle East oil boom of the 70s, all helped Bob to develop a successful British and international transport operation. Including nearly 300 previously unpublished photos, *You Call, We Haul* is an inspirational story which will appeal to those with an interest in the heyday of Middle-East travel, and those with a general love of great British transport companies.
